

Quality Policy

Total Ecology Ltd. has implemented a system which will be certificated to ISO 9001 2008. This system is capable of producing objective evidence that our service conforms to the specified requirements. The Company will ensure that essential inspections are determined and undertaken throughout all phases of the work.

Total Ecology Ltd. will provide a of full range of consultancy for ecological services that meet or exceed our customers' needs while achieving our business objectives and compliance with all relevant legislation and other requirements.

Compliance with the provisions and objectives of this policy are mandatory for all personnel within the Company.

The Company will monitor the effectiveness of its policy and objectives during regular management reviews, which shall ensure a system of continuous improvement.

Responsibility for the Quality System has been delegated to Mr. Ian Craft.

Mr. Ian Craft
